TTGI ANNOUNCES NON-BROKERED PRIVATE PLACEMENT AND PROPOSED SHARES-FOR-DEBT SETTLEMENTS

September 25, 2026 – Vancouver, Canada – **Turnium Technology Group Inc. (TSXV: TTGI) (FSE: E48)** ("**TTGI**" or the "**Company**"), a global provider of Technology-as-a-Service (TaaS) solutions and channel-only IT services, announces that it proposes to complete a non-brokered private placement of units (the **"Offering"**) to raise gross proceeds of up to C$3,500,000, as well as proposed shares-for-debt transactions (the **"Debt Settlements"**) to settle outstanding indebtedness owed to certain creditors of up to $2,000,000.

Non-Brokered Private Placement

Under the terms of the Offering, the Company intends to issue up to 116,700,000 units (each a "**Unit**") at a subscription price of C$0.03 per Unit. Each Unit will consist of one common share (each a "**Unit Share**") and one common share purchase warrant (each a "**Warrant**").

Each whole Warrant will entitle the holder to purchase one common share in the capital of the Company at an exercise price of C$0.05 per common share, for a period of three years from the date of issuance.

The Company intends to use the net proceeds from the Offering to retire certain debt facilities, and for working capital purposes related to several cost-cutting and growth initiatives, including strategic partnerships, and sales and marketing.

Shares-for-Debt Settlements

In addition to the Offering, the Company announces that it intends to enter into agreements with certain creditors to settle an aggregate of up to C$2,000,000 of outstanding trade payables and indebtedness. The shares-for-debt will be in compliance with the Policies of the TSXV.

To settle these debts, the Company will issue up to 66,700,000 Units at a deemed price of C$0.03 per Unit (as defined above). The Company believes that the Debt Settlements are a prudent measure to preserve its cash reserves and strengthen its balance sheet by improving its working capital position. The Units issued in settlement of the Debt will be subject to a hold period of four months and one day from the date of issuance. Completion of the issuances remains subject to the Company obtaining all applicable regulatory approvals, including the final acceptance of the Exchange.

General Terms and Regulatory Approvals

Completion of the Offering is subject to the approval of the TSX Venture Exchange (the "**TSXV**"). The Units will be issued pursuant to exemptions from the prospectus requirements in accordance with National Instrument 45-106 - *Prospectus Exemptions*.

The securities issued pursuant to the Offering will be subject to a hold period of four months plus one day from the date of issuance. Insiders may participate in the Offering, and details of any insider participation will be announced at a later date, as applicable.

In connection with the Offering, the Company may pay finder's fees of up to 7% in cash and 7% in finders' warrants to eligible finders, as permitted by the policies of the TSXV.

The Offering may close in multiple tranches, and is anticipated to be completed on or around October 30, 2026.

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**"), or any U.S. state securities laws, and may not be offered or sold to, or for the account or benefit of, persons in the "United States" or "U.S. persons" (as such terms are defined in Regulation S under the U.S. Securities Act) absent registration under the U.S. Securities Act and all applicable U.S. state securities laws or compliance with an exemption from such registration requirements.

This press release is not an offer to sell or the solicitation of an offer to buy the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to qualification or registration under the securities laws of such jurisdiction.
